Attenue - Readme Document

Problem addressed:

The project addresses the issue of manually tracking student attendance in educational institutions. Current manual systems are time-consuming, error-prone, and difficult to manage for large-scale institutions. By leveraging facial recognition technology, "Attenue" automates this process, ensuring accurate, real-time attendance logging, eliminating human error, and providing a scalable solution for various institutions.

Our Solution:

Our is a simple solution. We capture a picture of the classroom. Images of the faces of students are sent to our model, which already contains a database of all the students with their names, which helps us mark the attendance of the students without any hassle.

Team Details:

1. **Ishan Kanodia**
   Roll Number: 22AE10014
   Email: ikanodia2004@gmail.com
   Phone: +91-9100966767
   Role: Computer Vision, Notion

2. **Saket Kumar Singh**
   Roll Number: 22AE30022
   Email: saketkumarsingh@kgpian.iitkgp.ac.in
   Phone: +91-8368851784
   Role: Computer Vision, PPT

3. **Dev Bawari**
   Roll Number: 22AE10009
   Email: devbawari4@gmail.com
   Phone: +91-7579435042
   Role: Website, Application

4. **Nishul Kumar Kadam**
   Roll Number: 22AE10028
   Email: nishulcollege@gmail.com
   Phone: +91-7037346442
   Role: Website, IoT

5. **Dhruv Anil Rai**
   Roll Number: 22AE10010
   Email: dhrurai123@gmail.com
   Phone: +91-7248955444
   Role: Documentation

6. **Vishal Kochar**
   Roll Number: 22AE10046
   Email: vishalkochar1718@gmail.com
   Phone: +91-8989467449
   Role: Notion, PPT, Data Collection
